## RING SIZE GUIDE

### Measure an existing ring

Before using the size guide, make sure you print on A4 size paper with scaling set to 100%. To check your printout, measure the bar on the right. The scale is correct if the line measures exactly 30mm.

1. Select a ring that properly fits the intended finger.
2. Place the ring over the circles below, lining up the inside edge of the ring with the circle nearest in size.  
This measurement refers to the inside diameter of the ring.
3. If your size is between two sizes, opt for the larger of the two.

Please note that this is a guide only and based on EMPHASIS sizing.

If you require any assistance, please contact customer service at +852 2192 3228.
